

MAKING THE GRADE

The C400 VS Jr. redefines the way standing is incorporated into a child's daily routine and allows the user to drive while in a standing position. Standing can be achieved from either a sitting or a horizontal position, enabling the child to move about throughout the day and remain comfortable. Designed specifically for children, the C400 VS Jr. features a front-wheel drive base and a rugged suspension system. The small footprint of the C400 VS Jr. combines maneuverability with advanced obstacle climbing capabilities. Plus, the modular design of the Corpus seat ensures optimal fit with room for growth. With the C400 VS Jr., every child will be at the head of the class.

C400
VS JR. STANDER

POWER FUNCTIONS

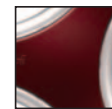

R-Net electronics with ICS

Power sit to stand from any position. Drive at reduced speed in standing position.

SHROUD COLORS

Crystal Blue

Vintage Wine
